# Lesson 2 - What Is Programming?

Carlos Luna

2024-2025

## Contents

**1 Overview** **2**

**2 What is an algorithm"** **2**

**3 How does a computer execute code?** **2**
3.1 Machine Code & Assembly . . . . . 2

**4 Programming Languages** **2**
4.1 Interpreted Languages . . . . . 2
4.2 Compiled Languages . . . . . 2
4.3 What if a programming language was both? . . . . . 2

**5 Strongly Typed vs. Weakly Typed Languages** **2**

# 1 Overview

# 2 What is an algorithm”

# 3 How does a computer execute code?

## 3.1 Machine Code & Assembly

# 4 Programming Languages

## 4.1 Interpreted Languages

## 4.2 Compiled Languages

## 4.3 What if a programming language was both?

# 5 Strongly Typed vs. Weakly Typed Languages
